# Beats for Change-Denmark makes a Difference

## Although our goal is to promote American sustainability we can learn from other countries. Soren from Denmark invited me to become a part of something outstanding through Care2.com.

## Beats4Change encourages cultural activities to raise awareness and funding for sustainable development of caring communities

**http://www.beats4change.org**

Cultural and economical activities, based on principles of mutual aid,which lead to:
– a world economy with ecological and social responsibility
– a free and manifold world culture
– the creation of a common future, based on work, knowledge and love
